FREE CHECKING MAY BE SOMETHING YOU CAN'T AFFORD TODAY.

It's natural to want something for nothing. But, as we all know, there's usually a cost attached to most free things. A good example is the free checking that is being offered by some banks. It sounds like a good deal, and in fact at one time it was. That's why we offered free checking for years.
But now there's something that's actually better than free checking: Central Fidelity Bank's Interest/Checking Plan.
This new way to handle your money pays you interest on the money you normally keep in your checking account, by combining the convenience of checking with the interest earning ability of savings. So, you earn interest on all your money until you spend it.
If you're paying nothing for checking, you're probably earning nothing.
When you could be earning interest at Central Fidelity Bank in an Interest/Checking Plan.
